

# Presentation Rubric

Groups are allowed to present live in class or submit a pre-recorded video to be viewed during class. Pre-recorded videos must be submitted by the end of the day on Monday April 17th.

## **Project Presentation (40 % of project)**

1. **Introduction (10 points):** define research object and state why it is important, interesting, or useful
2. **Data: (5 points)** Describe the data, with graphical displays.
3. **Statistical Model with Priors (5 points):** What statistical model is used to address your research question. What did you select as priors.
4. **Results (5 points):** Summarize results from the statistical model (with uncertainty)
5. **Discussion/Conclusion (5 points):** Translate statistical result to context of the problem.

---

## **Presentation Structure (10 points):**

- Time (7 minutes  $\pm$  1 minute)
- Quality Slides (use of images / graphics)
- Clear presentation (well rehearsed)
